ZOLLER On Tour

Take the **Next Step:** Optimize Your Production **With ZOLLER!**

Just give us a call, and we'll bring our ZOLLER solutions to you – Anywhere in North America. We will present smart solutions for your production process and support you in identifying potential optimizations on site.

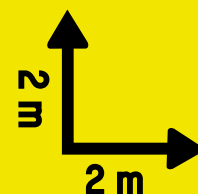

ZOLLER On Tour brings all parties together in one place. On site, we can clarify all of your requirements, based on your unique production process – so that we can offer you customized solutions. This offer is completely free of charge to you. All we need for our presentation is 20 minutes of your time, and a 2 x 2 meter area with a power connection.

Free, with no
commitment

20 minute
presentation

2 x 2 meters
space needed

We Come to You
for a **Live Presentation:**

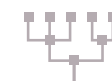

Efficient tool preparation

Unique tool identification

Secure data transmission to the machine

Multiple connection options

Data consistency for process reliability

Paperless production

Documentation of the entire production process

More than 70 years of expertise

Our Solutions for **more Economical Production:**

Thanks to the **CAM system's** connection to the **z.One central tool database**, you can simulate the entire production process with accurate tooling data.

Maintain a clear overview of your tools and accessories in the »toolOrganizer« tool cabinet, which stores tools securely, and allows you to issue them on a user-specific basis.

Prepared complete tools are identified and measured on the **presetting and measuring machine**. See for yourself how user-friendly the software interface is, and the level of precision you can achieve.

No typos, no machine crashes, less scrap, and more good parts – sound good? We offer you multiple options for simple and fast **tool data transmission to your machine**. One example is our »**zidCode**« – simply scan in the QR code on the tool and data is transmitted directly to the machine controller.

Our compact solutions for universal tool inspection, »**pomBasic**« and »**pomSkepGo**«, are also along for the ride in the ZOLLER On Tour van. These solutions allow you to quickly and easily inspect wear and tear and breakage.

We're Standing by When You're Ready

Work with us to achieve smarter production. Call now and set up your appointment - we will come to you, anywhere in Europe:
